## Activities to Help Your Toddler Grow and Learn

Your toddler enjoys being with you and is learning new words very quickly. She is using her language more often to let you know her wants, needs, and ideas. She can carry on a simple conversation and may talk to herself or pretend to have a conversation with a stuffed animal. She can follow simple directions and loves to read books. She likes to hear the same book read over and over!

### I Spy

You can play this in the car, on the bus, or on a walk. Say, "I spy with my little eye a green truck." Your child tries to find what you spied. Then it is his turn to spy something. Remember to spy things your child can see. You can also say, "I hear with my little ear..." Listen for sounds such as a motorcycle, a car horn, a bird singing, a dog barking, or a radio.

### Picture Album

Make a little album with pictures of your child and the people and pets he knows. Have your child talk about the pictures and name the people and pets. Ask your child, "Who's that? What are they doing?" Look at this book over and over. Help your child learn to say her first and last name and write it on the album.

### When You Were Little

Tell your child stories about when he was little: "When you were first born..." or "When you were a little baby..." Your child will love to hear these stories again and again.

### Dinner Report

At the end of a busy day, let everyone talk about his or her day. Ask your child to tell the family what she did during the day. Let her take her time. You might remind her if she forgets some events. Soon she will learn to tell what happened in the right order. Say, "Thanks for telling us about your day!"

### Washing a Baby

Let your child wash a baby doll in a plastic tub, or bring a baby doll into his bath. Name the doll's body parts as he washes the baby: "You're washing the baby's hands." Let your child know what a good job he is doing taking care of the baby.

### What's that Sound?

Turn off the television and other electronics, and listen with your child to sounds around your home. Listen to the refrigerator motor, wind chimes, a clock ticking, or people talking. Ask your child to tell you what she hears. Try this at night. Listen for the night sounds of crickets, frogs, or cars beeping. Whisper to each other about what you hear.

Notes:

**Don't Forget!** Activities should be supervised at all times by an adult. Any material, food, or toy given to a young child should be reviewed for safety.
