Activities to Help Your Baby Grow and Learn

Your baby knows his name and may use his voice to let you know he is happy. He can shout for your attention. He squeals and is beginning to babble to you and to others. He makes sounds such as “mama” or “dada.” He also is learning to respond to “bye-bye.”

Baby Rubdown

After bath time, enjoy some quiet time talking with your baby as you gently rub him down with lotion or oil. Tell him about your day and ask about his: “We went to the market today. You wore your new shirt from Grandma.”

What’s That?

When your baby notices a sound, help her locate the source. Ask your baby questions: “What’s that? Daddy’s car? Did you hear a dog?”

Touch that Sound

As your baby begins to experiment with his voice at about 5 months, you will probably hear “ba,” “mmm,” and “da” and “ah,” “ee,” and “oo” sounds. Imitate the sounds baby makes. While you make the sound, let your baby put his fingers on your lips to feel the vibrations.

Trust Building with Words

When you move away from your baby to do other things, keep in touch with your baby through your words. Tell her what you are doing as she follows with her eyes: “I’m over here. I’m picking up the clothes. I’ll be right back.” Now and then step out of sight but continue to talk until you return: “Did you miss me?”

Reading Time

Your baby will enjoy looking at pictures in magazines or books. Choose things such as a phone, dog, car, or spoon. Sit with your baby on your lap and read or talk about the pictures. Tell a little story: “See the phone? It’s for you.”

Sing a Song

When you are bathing, diapering, or changing your baby’s clothes, sing a song: “This is the way we wash our toes, wash our toes, wash our toes. This is the way we wash our toes, so early in the morning.”

Hide and Seek

Move just out of sight and call baby’s name. Wait a few seconds and then reappear: “Here I am!” Now find another place and hide again.

Notes:

Don’t Forget! Activities should be supervised at all times by an adult. Any material, food, or toy given to a young child should be reviewed for safety. Always watch baby when he is in water.
